

Publications

1. **Wang Guiying** (2001) Essai d'introduction du concombre chinois (*Cucumis sativus* L.) et de comparaison de variétés. Bulletin 2001 MAPAQ
www.cides.qc.ca/rapports/maraicher/legumes_chinois.pdf
2. **Wang Guiying**, Yang Fengping, (1999) The dynamic variation about the index of physiology, biochemistry and the content of ABA, GA in the plants during the dormancy of strawberry (*Fragaria annuella* L.). Journal of Beijing Agricultural University 14(2): 43-49
3. **Wang Guiying**, Huang Zicheng, (1998) The characters of needs of lettuce on nitrogen, phosphorus and potassium. Northern Agriculture 120: 18-20
4. Li Yuehua, **Wang Guiying**, (1998) Studies on dissected structure of some wild vegetable laminae. Journal of Beijing Agricultural University 13(3): 33-37
5. **Wang Guiying**, Zhang Chunzhen (1997) Effect of nitrogen, phosphorus and potassium fertilizer on yield and physiology target of Broccoli (*Brassica oleracea* var. *italica* L.). China Vegetable 1: 10-15
6. **Wang Guiying**, LI Jie (1997) A studies of irrigation law on lettuce (*Lactuca sativa* var. *capitata* L.) in spring. Beijing Agricultural Sciences 15(2)23-25
7. **Wang Guiying**, Zhao Jianming (1997) The application of fuzzy sets to system analysis in the screening of strains against fusarium wilt of watermelon (*Citrullus vurgaris* L.). Journal of Beijing Agricultural University 12(1):34-40
8. **Wang Guiying**, Wang Huaisong (1997) Cultivation technique of high-yield and high-quality of green pepper (*Solanum frutescens* L.). China Agricultural University Publishing House pp.125
9. **Wang Guiying**, Xue Yanqi (1997) Effect of CaM on germination of lettuce (*Lactuca sativa* L) seeds. Journal of Beijing Agricultural University 12(1): 41-44
10. **Wang Guiying**, Huang Zicheng (1997) Analysis and prediction of vegetable price and volume of business. Vegetable science 94: 4-6
11. **Wang Guiying**, Bai Xue (1996) Effect of light intensity on head of lettuce (*Lactuca sativa* var. *capitata* L.). Beijing Agricultural Sciences 14(1): 24-26
12. **Wang Guiying**, He Suli (1996) Effect of liquid-fertilizer on plug-seedling of tomato (*Solanum lycopersicon* Mill). Vegetable science 89: 30-31
13. Liu Wenxiang, **Wang Guiying** (1996) Effect of soil and fertilizer on yield and nitrate content of rape (*Brassica campatris* var. *commune* L.). Beijing Agricultural Sciences 14(4): 25-28
14. **Wang Guiying**, Wang Yu (1996) Vegetable culture. Agricultural Publishing House pp.88
15. **Wang Guiying**, Hu Suqin (1995) Comparing and analysis of stored protein in seed of legumes vegetable. Journal of Beijing Agricultural University 10(1): 43-48
16. **Wang Guiying**, Liu Shuqing (1995) A study of fertilization on eggplant (*Solanum melogena* L.). Vegetable science 83: 37-38
17. **Wang Guiying**, Bai ChengShou (1995) The influence of plant growth regulator on set fruit and expend of cucumber (*Cucumis sativus* L.). Journal of Beijing Agricultural University 10(1): 65-70
18. **Wang Guiying**, Liu YanQing (1995) Effect of plant growth regulator No.906 on pea

(*Phaseolus sativus* L.). Vegetable science 85: 36-38

19. **Wang Guiying**, Xie Shuzhen (1995) Taxonomy on germplasm resource of legumes vegetable with electrophoresis technique. Collected of Horticulture 486-492
20. **Wang Guiying**, Zuo Fengli (1994) Studies on genetic parameter and path analysis of some major yield characters on eggplant (*Solanum melongena* L.). Journal of Beijing Agricultural University 9(2) 69-74.
21. **Wang Guiying**, Liu XiuQing (1994) The effect of plant growth regulator on cucumber (*Cucumis sativus* L.) in greenhouse. Vegetable science 81: 18-23
22. **Wang Guiying**, Kang Guobin (1994) Environment condition analysis and regression prediction in sunlight greenhouse. Journal of Beijing Agricultural University 9(2): 75-84
23. Wang Yu, **Wang Guiying** (1994) Vegetable culture in greenhouse. Meteorology Publishing House pp.87-135
24. **Wang Guiying**, Xie Shuzhen (1994) The influence of different covering in head formation and yield-make-up on lettuce (*Lactuca sativa* L.) in spring. Journal of Beijing Agricultural University 9(1): 38-42
25. **Wang Guiying**, Zuo Jijun (1992) A study on genetic parameters of major quantity traits in radish turnip (*Raphanus sativus* L.) Northern Agriculture 28: 16-21
26. **Wang Guiying**, Zhang Yingchun (1992) Prevent-cancer action of vegetable. Journal of Beijing Agricultural University 7(2): 36-43
27. **Wang Guiying**, Tian Fenglan (1991) Application of PP333 on vegetable seedling. Beijing Agriculture 118: 6-9
28. **Wang Guiying** (1991) Application of plant growth regulator on horticulture. Beijing Agricultural University Publishing House pp.53
29. **Wang Guiying**, (1991) Separate and identify of piece of growing point on tomato (*Lycopersicon esculentum* Mill.). Journal of Beijing Agricultural University 6(1): 25-29
30. **Wang Guiying** (1990) Effect of nitrogen on yield of squash (*Cucurbita pepo* L.). Beijing Agriculture 109: 22-24
31. **Wang Guiying** (1989) Structure molecular mechanism and faction of plant Calmodulin. Journal of Beijing Agricultural University 4(2): 18-23
32. **Wang Guiying** (1988) Low-temperature induced ethylene of cucumber (*Cucumis sativus* L.). Journal of Beijing Agricultural University 3(1): 20-25
33. **Wang Guiying** (1987) Experience handbook on horticultural physiology. Beijing Agricultural University Publishing House pp.82
34. **Wang Guiying** (1986) Water absorb of plant roots. Chinese Academy of Agricultural science Publishing House pp. 56-86
